

# CLEANING FOR HEALTH

## Keep Your Facility Safe

Reducing the risk of exposure to COVID-19 by cleaning and disinfection is an important part of reopening public spaces. Proper cleaning is the first line of defense when it comes to your community's health. Your janitorial partners at AffinEco are armed with the tools you need to make workspaces safe.

**Our Cleaning For Health program is designed to keep your facilities clean, healthy and safe. Our program goes beyond the standard cleanliness, taking a comprehensive approach to disinfection, stopping the spread of emerging pathogens.**

## DISINFECT HIGH TOUCH SURFACES

Sanitize all high touch points using EPA-registered disinfectant and disposable dry wipes

## ELECTROSTATIC SPRAYING

Use the **Clorox® Total 360®** System, enabling superior coverage in all hard to reach places

## ATP TESTING

Quickly assess the cleanliness of surfaces using this rapid testing method. Ideal for highly susceptible populations

## SUPPLIES TO PROTECT THE WORKFORCE

Partner with us on the ordering and delivery of products and supplies that help prevent infection spread

# CLEANING FOR HEALTH CHECKLIST

The CDC and industry groups including BOMA have issued guidance for cleaning and disinfecting public spaces, workplaces, businesses and schools. The Team at AffinEco has several programs and services to assist our clients with meeting this guidance and developing their own Cleaning For Health programs.

CDC & Industry Reopening America Guidance	AffinEco Programs and Services
Clean and disinfect frequently touched surfaces with an EPA-approved disinfectant	Manually sanitize all high touch points with <b>Spartan® Chemical's hdq®C2</b> , a quater-nary disinfectant and dry wipes, which are disposable and no threat to carrying the virus by requiring laundering. Electrostatic Spray using the <b>Clorox® Total 360®</b> system to spray the area, killing viruses in minutes.
Provide hand sanitizers and disposable disinfecting wipes	Supply and deliver hand sanitizers, disposable disinfecting wipes, and face masks.
Maintain safe behavioral practices including social distancing, frequently washing hands and wearing face coverings	Supply and deliver social distancing signage, physical distancing barriers, self-cleaning coverings, and hand washing hygiene posters.
Avoid touching surfaces if at all possible	Supply, deliver, install and maintain self-cleaning surfaces by <b>NanoSeptic®</b> including elevator buttons, door handles, and light switches.

## ELECTROSTATIC DISINFECTION

AffinEco uses the **Clorox® Total 360®** System. This Electrostatic Sprayer enables superior coverage in all hard to reach places, including the side, underside and backside of surfaces. Our trained team will spray, killing viruses and bacteria within minutes. The product is safe for most surfaces, including tabletops, floors, upholstery, furniture, glass and stainless steel.

Let AffinEco assist in building your customized Cleaning For Health program. Contact us at [solutionexpert@affineco.com](mailto:solutionexpert@affineco.com) to get started today!
